MORRIS K. JESUP,  
AARON J. VANDERPOEL,  
WILLIAM A. WHELOCK,  
ABRAM S. HEWITT,  
Rev. S. M. HAMILTON.

## FACULTY OF MEDICINE.

Rev. HOWARD CROSBY, D.D., LL.D., Chancellor of the University.

MARTYN PAINE, M.D., LL.D., Emeritus Professor of Materia Medica and Therapeutics.

ALFRED C. POST, M.D., LL.D., Emeritus Professor of Clinical Surgery. President of the Faculty.

CHARLES A. BUDD, M.D., Professor of Obstetrics.

JOHN C. DRAPER, M.D., LL.D., Professor of Chemistry.

ALFRED L. LOOMIS, M.D., Professor of Pathology and Practice of Medicine.

WILLIAM DARLING, M.D., F.R.C.S., Professor of Anatomy.

WILLIAM H. THOMSON, M.D., Professor of Materia Medica and Therapeutics.

J. W. S. ARNOLD, M.D., Professor of Physiology and Histology.

JOHN T. DARBY, M.D., Professor of Surgery.

CHARLES INSLEE PARDEE, M.D., Professor of Diseases of the Ear; Dean of the Faculty.

ERSKINE MASON, M.D., Professor of Clinical Surgery.

D. B. ST. JOHN ROOSA, M.D., Professor of Ophthalmology and Otology.

WILLIAM A. HAMMOND, M.D., Professor of Diseases of the Mind and Nervous System.

STEPHEN SMITH, M.D., Professor of Orthopædic Surgery and Surgical Jurisprudence.

MONTROSE A. Pallen, M.D., Professor of Gynæcology.

FANEUIL D. WEISSE, M.D., Professor of Surgical Anatomy.

HENRY G. PIFFARD, M.D., Professor of Dermatology.

WALTER R. GILLETTE, M.D., Adjunct Professor of Obstetrics.

WILLIAM STRATFORD, M.D., Adjunct Professor of Chemistry.

LOUIS ELSBERG, M.D., Professor of Laryngology and Diseases of the Throat.

JOSEPH W. HOWE, M.D., Clinical Professor of Surgery.

ROBERT WATTS, M.D., Clinical Lecturer on Diseases of Women.

JOHN H. RIPLEY, M.D., Clinical Lecturer on Diseases of Children.

FREDERICK R. STURGIS, M.D., Clinical Lecturer on Venereal Diseases.

A. E. MACDONALD, M.D., Lecturer on Medical Jurisprudence.

J. WILLISTON WRIGHT, M.D., Lecturer on Minor Surgery and Surgical Dressings.

R. A. WITTHAUS, Jr., M.D., Lecturer on Physiological Chemistry.

JOSEPH E. WINTER, M.D., Demonstrator of Anatomy.

A. L. RANNEY, M.D., Lecturer on Surgical Diseases of the Urethra.

J. H. HINTON, M.D., Assistant to the Emeritus Professor of Clinical Surgery.

FREDERICK R. S. DRAKE, M.D., Assistant to the Chair of Practice.

WILLIAM T. BACON, M.D., Assistant to the Chair of Physiology.

F. H. RANKIN, M.D., Assistant to the Chair of Materia Medica.

ROBERT A. MURRAY, M.D., Assistant to the Chair of Obstetrics.

GLOVER C. ARNOLD, M.D., Prosector to the Professor of Surgery.

HENRY D. NICOLL, M.D., Assistant to the Chair of Gynæcology.

EDWARD FRANKEL, M.D., Assistant to the Chair of Clinical Surgery.

A. B. JUDSON, M.D., Assistant to the Chair of Orthopædic Surgery and Surgical Jurisprudence.

CHARLES T. WHYBREW, M.D., } Assistants to the Chair of Diseases of the Mind and Nervous System  
WM. C. RIVES, JR., }

FRANK M. DEEMS, M.D., Assistant to the Chair of Chemistry.

Clerk and Janitor : OSCAR FOLSOM.

# ANNUAL ANNOUNCEMENT

AND

## CATALOGUE.

SESSION 1875-76.

---

THE Medical Department of the University of the City of New York, which was established in 1841 in the Stuyvesant Institute on Broadway, has its present site directly opposite the entrance to Bellevue Hospital, on Twenty-sixth Street, near the East River. The Faculty were led to the choice of a location which would be central with reference to Hospital institutions, from the early recognition in the history of the college of the importance of clinical instruction in connection with the stated branches of medical study, the provision for which was initiated in this country by its late eminent Professor of Surgery, Dr. Valentine Mott. Besides Bellevue Hospital, and the Department of Out-door Medical Charity, which is directly opposite, the College is in immediate proximity to the ferry which communicates with the Charity Hospital and the other great public institutions on Blackwell's Island. These establishments, in connection with Bellevue, belong to the City of New York, and the Commissioners of Public Charities *have thrown them open to the students of all the medical colleges on precisely equal terms.* A ticket furnished by the Faculty of the University will enable a student to spend a large part of each day in these buildings, which contain over fifteen thousand patients annually, thus affording a field not surpassed in any other city for the study and investigation of every branch of practice, either general or special. Moreover, there are public examinations held by impartial boards twice in each year, at which twenty-four assistants are appointed to these institutions, each to serve eighteen months. The Faculty are also able to send their graduates before

the Examining Boards of many other important hospitals in the city which are not supported by the public treasury.

## NEW COLLEGE EDIFICE.

With the beginning of the next session the college will enter a new building, which has been erected at great expense with a view to render it as complete as possible in all its equipments, for the purposes of a medical school. The Faculty, Council of the University, and friends of the college, have been led to undertake this enterprise, owing to the insufficient accommodations of the old college building for the great increase in the number of students attending the recent winter sessions.

The new *general lecture room* is intended to seat five hundred students, and in connection therewith is every facility for clinical and didactic lectures.

The *dissecting room*, containing an area of nearly three thousand square feet, will enable two hundred students to dissect at one time, and has been constructed with particular regard for light and ventilation.

In addition to these there are three large and thoroughly equipped *physiological and chemical laboratories*, both for general and special instruction and experimentation. It is believed, therefore, that no institution in the country can afford superior facilities for practical study and investigation in these branches.

Moreover, the edifice contains a large *museum*, a number of *recitation rooms*, a *general reading and reception room*, and rooms specially fitted up for *photography*, for the use of the *ophthalmoscope*, *spectroscope*, etc.

Ample provision has also been made for the illustration of the uses of all *modern devices and appliances* in the treatment and diagnosis of medical and surgical diseases. For the accommodation of patients who have submitted to the graver surgical operations, male and female clinical wards have been provided where the patients may remain until they have recovered sufficiently to be removed without risk. Cases which would otherwise be lost to the College Clinics will thus be operated on before the Class.

FACULTY  
FOR THE DEGREE OF  
DOCTOR OF MEDICINE.

---

REV. HOWARD CROSBY, D.D., LL.D.,  
*Chancellor of the University.*

MARTYN PAINE, M.D., LL.D.,  
*Emeritus Professor of Materia Medica and Therapeutics.*

ALFRED C. POST, M.D., LL.D.,  
*Emeritus Professor of Clinical Surgery, President of the Faculty ; Visiting Surgeon to the PRESBYTERIAN HOSPITAL.*

CHARLES A. BUDD, M.D.,  
*Professor of Obstetrics ; Visiting Physician to the Department of Diseases of Women of BELLEVUE HOSPITAL.*

JOHN C. DRAPER, M.D., LL.D.,  
*Professor of Chemistry.*

ALFRED L. LOOMIS, M.D.,  
*Professor of Pathology and Practice of Medicine ; Visiting Physician to BELLEVUE HOSPITAL.*

WM. DARLING, M.D., F.R.C.S.,  
*Professor of Anatomy.*

WM. H. THOMSON, M.D.,  
*Professor of Materia Medica and Therapeutics ; Visiting Physician to BELLEVUE HOSPITAL.*

J. W. S. ARNOLD, M.D.,  
*Professor of Physiology and Histology ; Curator to BELLEVUE HOSPITAL.*

JOHN T. DARBY, M.D.,  
*Professor of Surgery.*

CHARLES INSLEE PARDEE, M.D.,  
*Professor of Diseases of the Ear ; Dean of the Faculty ; Surgeon to the MANHATTAN EYE AND EAR HOSPITAL.*

ERSKINE MASON, M.D.,  
*Professor of Clinical Surgery ; Surgeon to BELLEVUE HOSPITAL.*

**WINTER COURSE OF LECTURES.**

During the Winter Session didactic and clinical lectures will be given daily by the members of this Faculty as follows :

In the Department of Obstetrics Professor Budd will give each week three didactic lectures in the College building, and one clinical lecture in Bellevue Hospital.

In the Department of Chemistry, Professor Draper will give three lectures each week, and personally supervise the students' Chemical Laboratory.

In the Department of the Practice of Medicine, Professor Loomis, in addition to the didactic lectures of his course, will give two clinical lectures each week, one in Bellevue Hospital and one in the College building.

In the Department of Anatomy, Professor Darling will give five lectures each week, and personally direct the dissecting classes in Practical Anatomy.

In the Department of Materia Medica and Therapeutics, Professor Thomson, in addition to the didactic lectures of his course, will give two clinical lectures each week, one in Bellevue Hospital, and one in the College building.

In the Department of Physiology and Histology, Professor Arnold will give four lectures each week, and personally superintend the Microscopical and Physiological Laboratories.

In the Department of Surgery, Professor Darby will give three didactic, and one clinical lecture each week ; Professor Mason will give one didactic lecture in the College building, and one clinical lecture in Bellevue Hospital, and Professor Post will continue his weekly clinic in the College building. Professor Pardee, in addition to his duties as Dean of the Faculty, will give one lecture each week during the Spring Session, which will be illustrated with cases from the Manhattan Eye and Ear Hospital.

FACULTY  
OF THE  
POST-GRADUATE COURSE.

---

D. B. ST. JOHN ROOSA, M.D.,  
*Professor of Ophthalmology and Otolaryngology; Surgeon to the MANHATTAN EYE AND  
EAR HOSPITAL.*

WILLIAM A. HAMMOND, M.D.,  
*Professor of Diseases of the Mind and Nervous System.*

STEPHEN SMITH, M.D.,  
*Professor of Orthopædic Surgery and Surgical Jurisprudence; Surgeon to BELLE-  
VUE HOSPITAL.*

J. W. S. ARNOLD, M.D.,  
*Professor of Physiology, and, pro-tempore, of Pathological Anatomy.*

MONTROSE A. PALLAN, M.D.,  
*Professor of Gynecology; Surgeon to CHARITY HOSPITAL.*

FANEUIL D. WEISSE, M.D.,  
*Professor of Surgical Anatomy.*

HENRY G. PIFFARD, M.D.,  
*Professor of Dermatology; Physician to CHARITY HOSPITAL.*

POST-GRADUATE COURSE.

By establishing a Post-Graduate Course in connection with the Medical Department of the University, it is proposed to meet a widely felt requirement in medical education in our country. The facilities on the one hand for instruction in New York are so much more extensive than those which are necessary for the degree of Doctor of Medicine alone, while on the other so many graduates in Medicine have heretofore been obliged to go abroad to perfect themselves in special branches of study or of practice, that it has seemed to the Faculty of the Medical Depart-

ment of the University a duty owed by them to the profession to afford by this Course as complete a system of Post-Graduate instruction as it would be possible to obtain elsewhere.

#### LECTURES AND CLINICS.

This Course is to consist of lectures delivered by the professors of the several departments in the College building during the regular winter session, illustrated by clinics held both in hospitals and at the College. After an attendance of one session on these lectures any candidate who is already a graduate of a recognized Medical College can obtain a Diploma Certificate countersigned by the Chancellor of the University and the Dean of the Faculty of the Medical Department, and by four or more professors of the Post-Graduate Course, to the effect that the candidate has passed an examination by them in their respective branches of special medical instruction. The fee for the Diploma Certificate of this Course is \$30.

Prof. Roosa will give one didactic lecture and one clinic each week on the subjects of Ophthalmology and Otology.

Prof. Hammond will give one didactic lecture and one clinic each week on the subject of the Diseases of the Mind and Nervous System.

Prof. Stephen Smith will give each week one didactic lecture in the College building, and one clinical lecture in Bellevue Hospital on the subject of Orthopædic Surgery and Surgical Jurisprudence.

Prof. Arnold will give a course of twelve lectures on the subject of Pathological Anatomy.

Prof. Pallen will give one didactic lecture each week on the subject of Gynæcology.

Prof. Weisse will give one didactic lecture a week in the College building on the subject of Surgical Anatomy.

Prof. Piffard will give one clinic each week in the College building on the subject of Dermatology.

NOTE.—These Lectures are open to all the students of the University, but examinations upon them are only given to candidates for the Post-Graduate Certificate.

# AUXILIARY FACULTY.

---

WALTER R. GILLETTE, M.D.,

*Adjunct Professor of Obstetrics; Visiting Physician to CHARITY HOSPITAL.*

WILLIAM STRATFORD, M.D.,

*Adjunct Professor of Chemistry.*

LOUIS ELSBERG, M.D.,

*Professor of Laryngology and Diseases of the Throat.*

JOSEPH W. HOWE, M.D.,

*Clinical Professor of Surgery; Surgeon to CHARITY HOSPITAL.*

ROBERT WATTS, M.D.,

*Clinical Lecturer on Diseases of Women; Physician to CHARITY HOSPITAL.*

JOHN H. RIPLEY, M.D.,

*Clinical Lecturer on Diseases of Children; Visiting Surgeon to CHARITY HOSPITAL.*

FREDERICK R. STURGIS, M.D.,

*Clinical Lecturer on Venereal Diseases; Visiting Surgeon to CHARITY HOSPITAL.*

A. E. MACDONALD, M.D.,

*Lecturer on Medical Jurisprudence; Resident Physician at the NEW YORK CITY ASYLUM FOR THE INSANE.*

A. L. RANNEY, M.D.,

*Lecturer on Surgical Diseases of the Urethra.*

J. WILLISTON WRIGHT, M.D.,

*Lecturer on Minor Surgery and Surgical Dressings.*

R. A. WITTHAUS, JR., M.D.,

*Lecturer on Physiological Chemistry.*

JOSEPH E. WINTER, M.D.,

*Demonstrator of Anatomy.*

---

The members of the Auxiliary Faculty will give lectures and instruction during the Winter and Spring Sessions, as follows:

PROF. GILLETTE will give an obstetrical clinic each week during the months of September and October, in Charity Hospital; and

will give a course of lectures and hold clinics during the Spring Session.

PROF. STRATFORD will have charge of the Students' Laboratory during the Winter Session, and will give a course of lectures during the Spring Session.

PROF. ELSBERG will give a course of lectures on his subject during the Spring Session.

PROF. HOWE will hold a surgical clinic each week in Charity Hospital, during the months of January and February.

DR. WATTS will give a course of lectures on Diseases of Women during the Spring Session.

DR. RIPLEY will hold a clinic on Diseases of Children each week during the College Sessions.

DR. STURGIS will hold a clinic on Venereal Diseases in Charity Hospital, during the months of November and December, and will give a course of lectures during the Spring Session.

DR. MACDONALD will give a course of lectures on Medical Jurisprudence during the Spring Session.

DR. WRIGHT will give a course of lectures on Minor Surgery during the Spring Session.

DR. WITTHAUS will give a course of lectures on Physiological Chemistry in the Preliminary and Spring Sessions.

DR. RANNEY will give a course of lectures on the Surgical Diseases of the Urethra in the Spring Session.

The assistants to the Professors will give recitations during the Spring Session, and assist them in their various departments at their clinics and lectures during the Winter Session.

#### SESSIONS.

THE COLLEGIATE YEAR is divided into two sessions—the Regular Winter Session, and the Spring Session. The latter is supplementary to the former, the design of the Faculty being to furnish instruction to medical students throughout the year. *Attendance on the Regular Winter Session is all that is demanded of the candidate for graduation.*

#### SPRING SESSION.

The Spring Session combines Clinical and Didactic Teaching with Daily Recitations, thus affording efficient and systematic instruction to the advanced student as well as to the beginner. Two Recitations will be held daily by the Professors or their assist-

ants in the College building; these Recitations will embrace Surgery, Anatomy, Practice of Medicine, Physiology, Chemistry, Materia Medica, Obstetrics, and Histology. One Didactic Lecture will be given daily in the College building by the Professors of the Auxiliary Faculty. Two Clinical Lectures will be given daily, either at Bellevue or Charity Hospitals, or the Manhattan Eye and Ear Hospital. The Dissecting-Room will be open during the first two months of the Session, under the personal direction and superintendence of the Professor of Anatomy. The Chemical, Microscopical, and Physiological Laboratories will be open during the Session for practical instruction in those branches.

This course begins in the first week of March, and ends the middle of May, when the Summer Commencement is held.

#### PRELIMINARY WINTER SESSION.

The Preliminary Term commences on Wednesday, Sept. 15, 1875, and continues until the opening of the Regular Session. The Lectures in this Term, both Clinical and Didactic, will be the same in number and order as during the Winter Session, and will be given by the Professors of the Regular and Post-Graduate Faculties. The subjects of the Lectures will be introductory to those of the Regular Course. Attendance on this Term is optional with the Student, and is not a requisite for graduation, but the Faculty earnestly hope that the Students will avail themselves of the advantages afforded by this practical course.

#### REGULAR WINTER SESSION.

The Regular Winter Course occupies four and one-half months, commencing on Wednesday, September 29, 1875, and continuing to the middle of February, 1876. The system of instruction for the coming Session will be as follows:—

From four to five Didactic Lectures will be given each day in the College building, and will embrace a thorough course in Medicine and Surgery, both elementary and practical. Two Clinical Lectures will also be given each day, one of which will be a hospital clinic in the Amphitheatre of either Bellevue, Charity, Roosevelt, or in the Manhattan Eye and Ear Hospital. The other will be given in the College Amphitheatre, and will be illustrated by cases furnished by the different Dispensaries of the city.

## CLINICAL INSTRUCTION IN HOSPITALS.

The resources of New York for instruction in hospitals, to all of which tickets are issued to students of the University, and in which clinical instruction will be given daily by different members of its faculty, are as follows :

BELLEVUE HOSPITAL, immediately opposite the University, contains more medical cases than any other hospital in the country. More than seven thousand cases are received annually, and thus all forms of diseases and injury (except contagious disorders, which are treated on Blackwell's Island) can be studied in its wards. All the clinics held in the hospital are open to University students daily, and the surgical operations of importance are performed publicly in its Amphitheatre. Twelve Junior Assistants are appointed by competitive examination each year.

CHARITY HOSPITAL, on Blackwell's Island. The ferry is a few steps from the University, and the passage and entrance-ticket is furnished by the Faculty. It usually contains eight hundred patients, a large proportion being cases of syphilitic disease, both in males and females, genito-urinary and uterine diseases, and a large obstetric service. Several of the Professors and staff of the University are connected with this hospital, and students will have every facility for study and examination. Twelve Junior Assistants are appointed by competitive examination each year.

In addition to these, there are under the control of the New York City Board of Commissioners of Public Charities and Correction, and accessible to students, the FEVER and SMALL-POX Hospitals, the hospital for EPILEPTICS and PARALYTICS, the NURSERY HOSPITAL, the INSANE ASYLUM, and the Bureau of Relief for the OUT-DOOR POOR. This last, in which gratuitous advice and medicine are given to walking cases of disease, is opposite the University Medical College on Twenty-sixth Street, and can be visited by its students every day.

The ROOSEVELT HOSPITAL in Fifty-ninth Street, and the PRESBYTERIAN HOSPITAL in Seventy-third Street, have recently been opened for the reception of patients ; and in these institutions Profs. Post and Mason will perform operations before the class during the Winter Session.

Besides the above advantages, the students of the University have access to the MANHATTAN EYE AND EAR HOSPITAL, of which

Profs. Roosa and Pardee are Surgeons, and where 2,500 new patients are treated annually, and over 500 operations performed.

In addition to the above, graduates and students of the University can apply for positions on the resident staff of the ST. VINCENT, MT. SINAI, ST. LUKE'S, the CHILDREN'S, and the WOMAN'S HOSPITALS; the LYING-IN ASYLUM, the COLORED HOME, the MANHATTAN EYE AND EAR HOSPITAL, and the EMIGRANT'S HOSPITAL.

The extraordinary facilities and advantages presented by the City of New York for the acquisition of practical knowledge in medicine and surgery strongly recommend it to the attention of the *medical profession* and to students. The University led the way in inaugurating and developing these great advantages, and its Faculty will continue to make them as available as possible.

#### PRACTICAL ANATOMY.

The supply of DISSECTING MATERIAL is abundant, and is furnished to matriculants of the University *free of charge*. The Anatomical Room in the College building is large, well lighted and ventilated, and is supplied with everything requisite for the convenience and comfort of the student, and will be under the immediate direction and superintendence of the Professor of Anatomy, who devotes a large part of his time to demonstration. The Dissecting Room will be open from the last of September until the middle of May.

#### MORBID ANATOMY.

Students of the University will have free access to the Post-mortem Rooms of Bellevue and Charity Hospitals, where Examinations are made daily by the Curators.

The large number of Coroner's cases affords illustrations of topics relating to Medical and Surgical Jurisprudence. Coroner's Inquests are also made from time to time before the class.

#### SURGERY.

Operations will be performed daily by Professors Post, Darby, Mason, Smith, and Howe, at Bellevue, Charity, Roosevelt, and Presbyterian Hospitals, and in the College building.

Prof. Alfred C. Post having resigned the Chair of Surgery, and having been appointed Emeritus Professor of Clinical Surgery, Dr. John T. Darby, late Professor of Anatomy and Surgery in the University of South Carolina, has been elected by the Council

Professor of Surgery in the University, and Dr. Erskine Mason, Professor of Clinical Surgery. Special Courses of Instruction in Operative Surgery on the Cadaver will be given by Professors Darby and Mason.

#### OBSTETRICS.

The Lectures on Obstetrics are illustrated by cases in the College building and Hospitals. The principal operations are performed each Session before the class, and this important branch of the medical art can be studied as a specialty.

Second-Course Students will be provided with cases of labor, of which they take the entire control, unless the cases are complicated, when the Professor of Obstetrics or his Adjunct will assist them.

#### CHEMISTRY.

The Professor of Chemistry gives special attention to those branches of his subject which are of importance to physicians. He devotes a part of the course to Toxicology, and has frequent opportunities of illustration by practical cases. He has also personal charge of the Laboratory, where Students may become familiar with chemical manipulations at a trifling expense.

#### PRACTICAL MEDICINE.

In addition to the Didactic and Clinical Lectures on Pathology and Practical Medicine given in the College building, Professor Loomis will organize a Diagnosis Class, to be held in the Amphitheatre of Bellevue Hospital on Tuesday of each week, when students will examine patients and make diagnoses before the class.

#### PHYSIOLOGY.

Professor Arnold will give during the course a full series of experiments, consisting of vivisections, enlargements on the screen with the stereopticon, the electric microscope, the megascope, etc. The circulation and heart's action will be demonstrated by means of Marrey's apparatus, or the graphic method. Suitable instruments will be made use of for illustrating the physiology of the nervous system. Chemical and mechanical problems in their physiological bearings will receive marked attention.

**MATERIA MEDICA AND THERAPEUTICS.**

In this course special attention is directed to those Remedial Agents which are not Medicines, and the action of Medicines Proper, with particular reference to their practical application, illustrated in Bellevue Hospital and in the College Clinics.

**MOTT PRIZE MEDALS.**

By the will of the late venerable DR. VALENTINE MOTT, who was one of the founders of this College, and for many years its President and Professor of Surgery, perpetual provision was made for the following medals:—

A gold medal to the candidate who shall prepare the best dried anatomical or anatomico-surgical preparation.

A silver medal to the second best of that description.

A bronze medal to the candidate who shall furnish the best book of recorded cases and remarks of the Professor of either of the Surgical Clinics.

Candidates for graduation, as well as first and second course students, may compete for these medals.

The preparation shall belong to the University Mott Prize Museum, and be labelled with the name of the maker.

The volume of cases shall also belong to, and be deposited in the Museum.

The medals to be announced by the Chancellor, and presented to the successful candidates, at the Spring Commencement of the College.

The medals not to be awarded, except the specimens presented are of sufficiently good character.

These prizes were awarded at the last Commencement as follows:—

The gold medal to Alex. Dallas, of New York.

The silver medal to George A. Balcom, of Nova Scotia.

The bronze medal to Franz Heuel, of New York.

**FACULTY PRIZES FOR PUBLIC COMPETITIVE EXAMINATIONS.**

The following named Professors offer to award Prizes at the March Commencement to those members of the Graduating Class who have passed the best examinations in their several departments.

These examinations will be held in public at the close of the Lecture Term, and the award made by Committees appointed from the Alumni Association. Candidates for these Prizes must have secured the highest marks of the Professors who offer them in the stated examinations for the College Degree.

1. Prize by PROF. BUDD, for the best examination in Obstetrics.

2. Prize by PROF. LOOMIS, for the best examination in Pathology and Practical Medicine.

3. Prize by PROF. THOMSON, for the best examination in Materia Medica and Therapeutics.

4. Prize by PROF. ROOSA, for the best examination on Diseases of the Eye and Ear.

5. Prize by PROF. ARNOLD, for the best examination on Physiology.

6. MR. JAMES BRYCE, of this city, will give a prize of fifty dollars (\$50) for the best thesis upon any subject connected with Obstetric Medicine. The decision to be made by the Professor of Midwifery and his Adjunct, and the Professor of Diseases of Women.

7. ALUMNI PRIZE. (See third page of cover.)

These prizes were awarded last year as follows:—

The Budd prize, to Chas. S. Webb, of Va.

The Loomis prize, to R. J. Heinmüller, of N. Y.

The Thomson prize, to Frank L. Smith, of Mass.

The Roosa prize, to K. H. Sewny, of Turkey.

The Arnold prize, to K. H. Sewny, of Turkey.

The Bryce prize, to Henry Furness, of N. Y.

Prof. Elsberg's prize, to Alex. Dallas, of N. Y.

Prof. Pallen's prize, to John Emory Paine, of Miss.

Prof. Piffard's prize, to Alex. Dallas, of N. Y.

Prof. Gillette's prize, to Franz Heuel, of N. Y.

Dr. Ranney's prize, to Anthony Peck, Jr., of N. Y.

#### REQUIREMENTS FOR GRADUATION.

Candidates for the degree of Doctor of Medicine must have attended two full courses of Lectures—the *latter* in this College. They must have studied medicine three years, under the direction of a regular physician or surgeon, and have attained the age of twenty-one years. Each candidate is required to write a medical thesis, and to deposit it with the Dean of the Faculty. Full certificates of the time of study, of age, and of moral character must also be furnished.

He must be examined separately by the Professors of Surgery, Obstetrics, Chemistry, Practice of Medicine, Anatomy, Physiology, and Materia Medica.

The Ad-eundem Degree of the University will be conferred on graduates of recognized Medical Colleges who shall have passed satisfactory examinations by the Professors of Practice of Medicine, Materia Medica, Surgery, and Obstetrics.

Two Commencements take place annually in the University, at either of which the candidates who have complied with the above requisitions may graduate.

The first is in the middle of February, the second about the middle of June.

#### FEES FOR THE WINTER COURSE.

*Matriculation Fee*, \$5.

*Fees for the full Course of Lectures by all the Professors*, \$140; for each separate ticket, \$20.

*Ticket of the Demonstrator of Anatomy*, \$10.

*Graduation Fee*, \$30.

The tickets are to be taken out at the beginning of the Session.

Students who have already attended two full courses of lectures in other regular schools, are admitted on paying the matriculation fee and \$70.

Students who have attended two full courses in this College, or who, having attended one full course in some regularly established medical school, shall *subsequently* attend one full course in this College, are admitted to a third course of lectures on paying the matriculation fees only.

GRADUATES of regular schools, and *Theological Students*, are admitted on general ticket, by paying matriculation fee.

#### FEES FOR THE SPRING COURSE.

Students who have attended the Winter Course of lectures will be admitted to the Spring and Summer Course *free of charge*, except the matriculation fee. Those who have not attended the Winter Course will be admitted on payment of the matriculation fee and \$30; and, should they decide to become pupils of the University for the Winter Course ensuing, the \$30 thus paid will be credited to them on taking out their tickets for that course. The student will therefore gain in this manner seven months' instruc-

tion free of cost. A laboratory fee of \$5 is charged for the Spring Course.

The Diploma of the University is recognized by the Royal College of Surgeons, England.

#### BENEFICIARY FOUNDATION.

For the purpose of assisting meritorious individuals, the Faculty will receive annually a limited number of beneficiaries, each of whom will be required to pay \$43 and the matriculation fee toward the expenses of the institution. The sons of physicians and clergymen, other things being equal, will be considered as having a preferred claim. Those who are desirous of availing themselves of this foundation will present to the Dean of the Faculty, during the summer, satisfactory documents, showing them to be persons of good moral character, of appropriate elementary education, and in circumstances which require this assistance.

#### SCHOLARSHIPS.

Scholarships have been founded in the University during the past year by the following friends of the Medical Department:

D. WILLIS JAMES, ESQ.,	JOHN TAYLOR JOHNSTON, ESQ.,
WM. NIBLO, ESQ.,	R. A. WITTHAUS, ESQ.,
WM. M. VERMILYE, ESQ.,	WM. E. DODGE, JR., ESQ.,
MORRIS K. JESUP, ESQ.,	JOHN C. GREEN, ESQ.

#### BOARDING.

The expenses of living in the City of New York have heretofore deterred many medical students from availing themselves of the great clinical advantages offered by the Faculty of the University.

Arrangements have now been made by the Dean so that each matriculant of the College will be furnished with good board, including room-rent, at a convenient distance from the College building, at the very low rate of \$5 per week. The Clerk has positive instructions to furnish boarding-houses to none except matriculants in the University.

For further particulars, address

**Prof. CHARLES INSLEE PARDEE, M.D., Dean.**

University Medical College, 410 East 26th Street,

NEW YORK CITY.

## MEDICAL CLASS.

SESSION 1874-75.

	Residence.	Preceptor.
Adams, Edward Austin, A.B.	Mass.	Dr. D. W. Miner.
Adamson, Hubbard Kavanaugh.	Ky.	Dr. M. F. Adamson.
Aherns, John D.	N. Y.	University.
Alfaro, Manuel Maria.	Ecuador.	University.
Alton, C. D.	N. Y.	Dr. A. L. Loomis.
Armstrong, Milton Nathan.	N. J.	Dr. John C. Johnson.
Armstrong, Theodore Jackson.	N. Y.	University.
Armstrong, William Palmer, M.D.	Ind.	University.
Atkinson, James McCullum.	Ark.	Dr. Frank Cotten.
Badham, James Thomas.	N. Y.	Dr. H. Pinckney.
Bacr, Emanuel Swarr, A.B.	Pa.	Dr. J. W. Hess.
Bailey, David Ieland.	Pa.	D. B. Iland.
Bailey, Stelle, M.D.	Ky.	Jefferson College.
Bailey, William Otto.	N. J.	Dr. Hatch.
Balcom, George Alden.	N. S.	University.
Balcom, Parker Nathaniel.	N. S.	Dr. John Harris.
Banks, Charles G.	N. Y.	University.
Bayne, G. M.	N. Y.	University.
Becker, Clayton Adelbert.	N. Y.	Dr. L. F. Wilbur.
Bedell, Winfield Scott.	N. Y.	University.
Beckman, John Calver.	N. Y.	Dr. J. T. Darby.
Bennett, Franklin.	N. Y.	University.
Bennett, Henry Fletcher, M.D.	Ky.	University.
Bergmann, William Charles.	N. Y.	University.
Bigman, Henry Hassert.	N. Y.	Dr. I. I. Buckbee.
Biggs, Frederick Pfeiffer, M.D.	Cal.	University.
Blakeslee, William Elley.	Pa.	Dr. A. C. Blakeslee.
Bottman, Philip.	N. Y.	University.
Bonnie, Henry Marshall.	N. Y.	Dr. I. C. Bourne.
Bosman, Charles Pleasant.	Mo.	Dr. C. A. Jennings.
Boyd, John A.	S. C.	Drs. Player and Darby.
Boyd, John G.	N. Y.	University.
Breiman, Lawrence.	N. Y.	Dr. T. J. Norton.
Brocklebank, J. C.	N. Y.	University.
Brooks, Henry James, M.D.	Ills.	University.
Brosnan, David Moymlhan.	N. Y.	Dr. A. L. Ranney.
Bronson, Winfield Scott.	Mo.	University.
Brown, Warren Edward, M.D.	Mo.	University.
Brown, Valentine.	N. Y.	University.
Buchanan, James Sylvester, M.D.	Va.	University.
Buell, Olin Farrington.	N. Y.	Dr. J. L. Bulkley.
Buli, Charles C.	N. Y.	University.
Burke, Michael Joseph.	N. Y.	Dr. D. D. Toal.
Burroughs, John Jones, M.D.	Texas.	University.
Burgett, Peter Valentine.	Conn.	Dr. M. B. Pardee.
Busche, Thomas William, A.B.	N. Y.	University.
Byrne, Joseph M.	N. Y.	Dr. D. C. Lee.
Byrne, P. H.	N. Y.	University.
Byrne, Patrick James.	N. Y.	University.

Zaldivar, Adolfo.....	Costa Rica.....	University.

## GRADUATES OF THE MEDICAL DEPARTMENT OF THE UNIVERSITY OF THE CITY OF NEW YORK, 1875.

FRANK WOOD SPAULDING, A.B., Valedictorian.

Armstrong, Milton Nathan .....	Erysipelas.
Badham, James Thomas .....	Bromide of Potassium.
Baer, Emanuel Swarr, A.B. ....	Acute Articular Rheumatism.
Bailey, David Leland .....	Naso-pharyngeal Catarrh.
Balcom, George Alden .....	Acute Peritonitis.
Balcom, Parker Nathaniel .....	Diphtheria.
Becker, Clayton Adelbert .....	Opium.
Bennett, Franklin .....	Treatment of Phthisis.
Biggam, Henry H. ....	Acute Peritonitis.
Blakeslee, William Riley .....	Science of Medicine.
Bourne, Henry Marshall .....	Hygiene.
Bowman, Charles Pleasant .....	Asiatic Cholera.
Boyd, John G. ....	Medical Jurisprudence.
Bronson, Winfield Scott .....	Opium.
Browne, Valentine .....	Typhoid Fever.
Buchanan, James S., M.D. ....	Surgical Pathology.
Burke, Michael Joseph .....	Bronchitis.
Byrne, Joseph M. ....	Abortion.
Camp, Charles Welford .....	Compound Fracture.
Carpenter, Henry Townsend .....	Waxy Degeneration of Liver.
Carpenter, James Given .....	Abortion.
Chamberlin, William Henry .....	Uterine Displacements.
Corcoran, Jeremiah Joseph .....	Puerperal Eclampsia.
Craig, William Henry .....	Peritonitis.
Crummer, Benjamin Franklin, M.D. ....	Puerperal Eclampsia.
Clark, William Augustus .....	Life.
De Garmo, William Burton .....	Inguinal Hernia.
Dearborn, Darius S. ....	Pulmonary Eclampsia.
Elliott, Edward Ross .....	Scarlet Fever.
Farleigh, Thomas John .....	Abortion.
Flanagan, Peter Joseph .....	Emphysema.
Fiske, Isaac Parsons .....	Phthisis.
Foertsch, Jacob .....	Diphtheritis.
Furness, Henry .....	Insanity Incidental to Child-bearing.
Goodman, Jacob .....	General Paresis.
Greer, Charles Campbell .....	Acute Articulation.
Griswold, Roger M. ....	Compression and Concussion of Brain.
Heinmüller, Robert John .....	Respiration.
Heifer, Samuel Alexander .....	Typhus.
Heuel, Franz .....	Cholera Infantum.
Hine, Raphael Franklin .....	Pott's Disease.
Holmes, John Funnell, Jr. ....	Bright's Disease of Kidney.
Hupfeld, Julius William .....	Blood-letting.
Jacobs, Arthur Thaddeus .....	Rubeola.

Jacobs, George Lauek.....	Acute Desquamation.
James, John Henry.....	Typhoid Fever.
Kaemmerer, Charles .....	De la Paralyse du Nerf facial.
Keegan, Patrick Joseph.....	Hypodermie Use of Carbolic Acid in Erysipelas.
Kiernan, James George.....	Fat.
Kneuper, Frederick Jacob.....	Acute Nephritis.
Lindsay, Francis William.....	Acute Peritonitis.
McBirney, Edward William.....	Typhoid Fever.
Mackey, Nathan Callender.....	Procured Abortion.
Madigan, Michael Joseph.....	Bright's Disease.
Manley, Thomas Henry .....	Surgical Operations, etc.
Maxwell, Thomas Meredith .....	Eczema.
Meroney, William Lowndes, M.D.....	Vomiting in Pregnancy.
Meyersburg, Adolphus George.....	Iron.
Miller, Samuel Nelson. ....	Acute Pleurisy.
Moloney, Gerald Ryan .....	Mechanism and Treatment of Breech Presentation.
Moor, William Lewis.....	Acute Parenchymatous Nephritis.
Morgan, John Clarence, Jr.....	Syphilis.
Newberry, Franklin Robert.....	Typhoid Fever.
Nicholson, James Lloyd.....	Post-partum Hemorrhage.
Paine, John Emory, A.B.....	Communication of Syphilis from Fœtus to Mother.
Pardee, Ensign Bennett.....	Thermometer.
Peck, Anthony, Jr., A.B.....	Inflammation.
Popoff, Peter John.....	Vinum Lactis.
Ringler, Charles Frederick .....	Progress of Therapencies.
Roach, Paul.....	Alcohol.
Roberts, Eli Everett.....	Typhoid Fever.
Roehr, Robert Hermann.....	Pneumonia.
Rogers, John Cassell, M.D .....	Rigidity of Cervix Uteri.
Schoenemann, Charles P. R.....	Chronic Phthisis.
Sewny, Kareken Hekimian.....	Lateral Lithotomy.
Skinner, Edgar Charles.....	Typhoid Fever.

## Alumni Prize.

Through the generosity of Mr. JAMES BRYCE, the Alumni Association is enabled to offer a Prize of a gold medal of the value of one hundred dollars "for the best Resumé on the subject of Pulmonary Consumption;" a careful collection and comparison of the latest views of theory and practice, together with an expression of the personal views of the writer on this subject, is embraced in the plan intended.

All theses presented for this prize must be sent on or before the 5th of January 1876, to the Chairman of the Committee. Each essay should have a motto, and be unsigned, but accompanied by a sealed envelope containing the name and address of the writer, and superscribed with the motto.

The Prize will be awarded at the annual Dinner of the Association.

Committee : { JAMES R. LEAMING, Chairman,  
160 West 23d St., New York,  
JAMES H. ANDERSON,  
D. B. ST. JOHN ROOSA.

The Catalogue of the Graduates and Officers of the College may be procured on application to the Secretary.

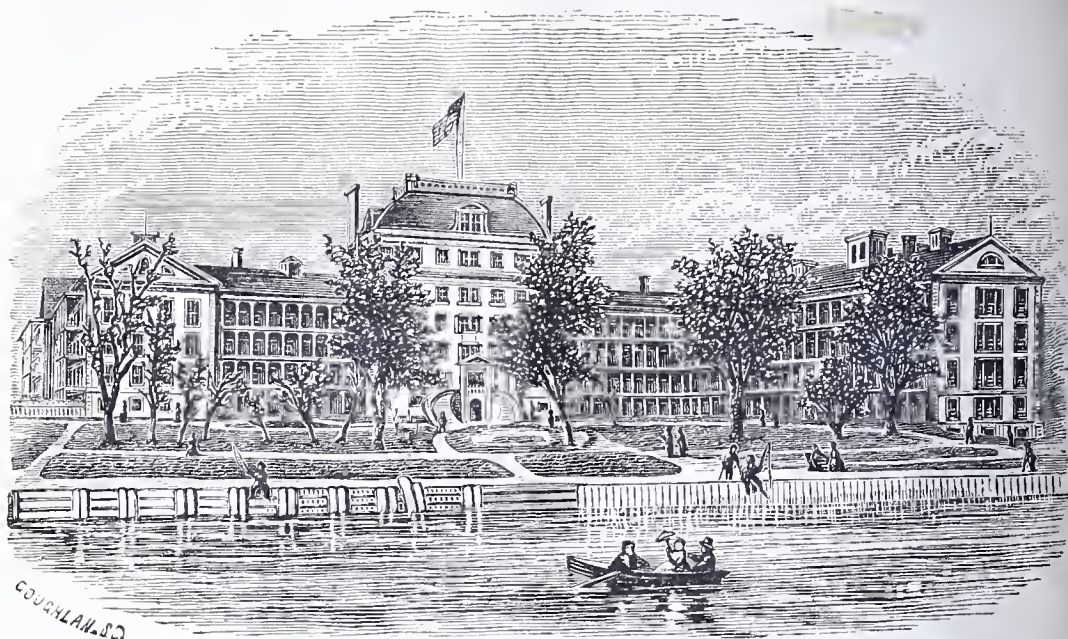

The Association will publish future editions of the Catalogue; and, in order to make such editions more complete, each graduate whose name and professional history is not recorded will please forward information in regard to himself and other living graduates, giving the names in full, the names and dates of literary degrees, and the places of honor and trust held since graduation; also, information concerning deceased graduates.

Please address the Secretary of the Alumni,

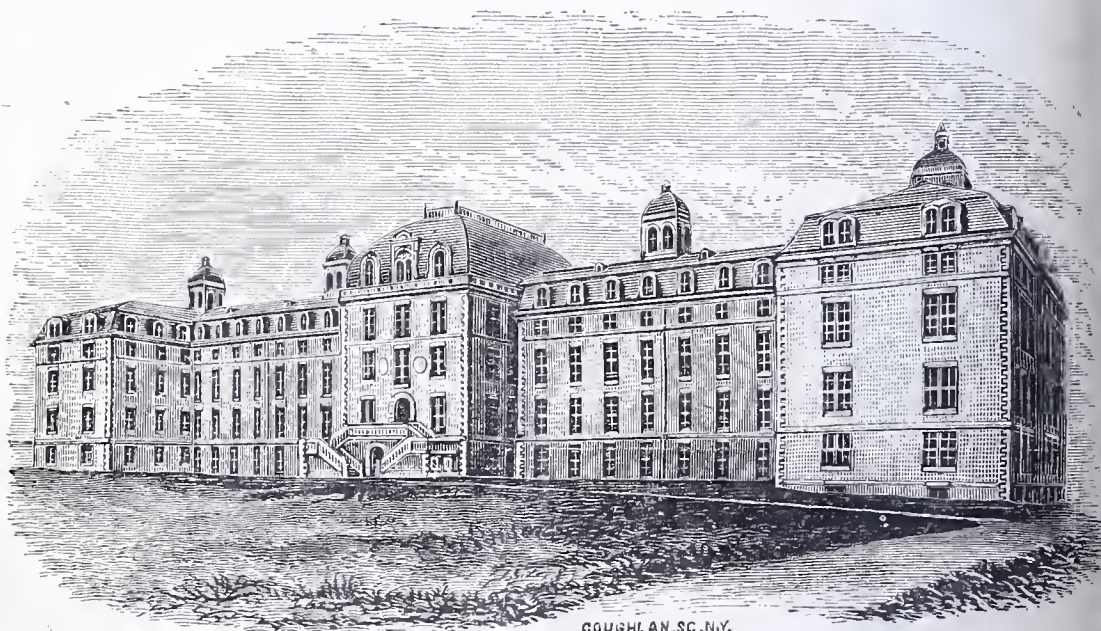

FRED. R. S. DRAKE, M.D.,

58 West 25th Street, New York City.
